

# Aurdra Smith – Consultant

We are a brokerage that makes sure the client has a personal experience!

I am dedicated to personally setting aside time for the employee or client to explore options on a one on one basis when selecting or choosing plan options. It is of the utmost importance that they are choosing a plan that fits their needs and family dynamics. If you are having to pay top dollar for a policy, you should purchase something that fits your needs and budget.

Also as difficult as the Federal Marketplace/Heathcare.gov (OBAMAcare) is to apply and manage. I am skilled at offering to simplify this for you. I handle everything for you and leave you to just pick a plan. This takes alot of pressure off the individual that doesn't understand insurance or want to know how it works. Once your plan is in place the service continues. I have an open door policy and am a phone call, text, email, or good old fashion one on one visit. I am here to serve your needs and take the stress and pressure off you and your family.
